

January 2019 Engineering Committee Minutes

Kudos – Devin LaCroix, for stepping up for Live Music Mixing on multiple occasions. Thanks also for cleaning and refurb of Rane DJ Mixer in the Air Room.

Agenda –

Station Links – 950 CDLink –Work in progress. Status update. Barix STL option discussed.

UPS – Help is on the way. We have found a vendor that works on this specific UPS. Scheduled inspection and repair options next week.

Server Room Firewall Replacement – Sunday January 6th at Noon.

CD Burner – The Air Room has a refurbished CD Burner installed.

Air Room Guest Lighting – The Dimmer switch for the Guest Lighting in the Air Room is dead. Looking for a suitable replacement switch.

Server Room - We could not reconnect network drives on log on and discovered that backup batch file would not connect. We were not backing up for two weeks. Corrected with a new batch file

Fire Alarm Failure – Two of our fire alarms in the office hallway failed the test. New units are shipping and will need to be installed.

DMZ – Marc is setting up a PC at the receptionist desk where Volunteers can scan their SD cards and USB Thumb Drives. We will need to provide training for volunteers and receptionist.

MLK Remote Broadcast – Production meetings continue every weekend until the Broadcast January 21st. There will be a Remote Broadcast Training workshop January 18 from 6PM-8PM in Studio One for those that wish to brush up their skills.

Secondary Internet Connection – BendTel update. Marc has information.

P3 – PC card reader not working

Bathroom Speaker – Does not work after reinstallation.
